Course duration from 8.45am to 4.30pm approximately. Candidates should aim to arrive 15 minutes before this.

Our objective is that following the course the candidate;

- will have a working knowledge of section 2-9 and 18-19 of the Health and Safety at Work Act 1974 and other relevant regulations.
- will be aware of accident control and prevention.
- will be aware of the need for personal protective equipment.
- will know how to drive and safely manoeuvre a machine as required to a correct position and carry out a nominated task.

The candidate will also be able to carry out a thorough pre-use inspection and be aware of and know how to operate the auxiliary or manual descent procedure.

Morning session: -

Registration and introduction
Health and Safety Law
6 Pack of regulations guidance and ACOPs
A selection of the above regulations discussed relevant to machine operation.
LOLER regulations applicable to the equipment and operator
Different machine types and their construction
MEWP Theory
Accident causes and their prevention
Theory test, 25 questions multiple choice.

Afternoon session: -

Operators daily pre-use inspection of the equipment
Prep machine for road travel
Setting machine up for use on site
Practical demonstration and coaching session
Practice session
Practical assessment
Course evaluation
Dispersal

All candidates must be at least 18 years old and be in possession of the following;

1. A Full UK Driving Licence, which **must** be brought on the day
2. National Insurance number for registration with IPAF
3. Safety harness (available from Smart @ £69.95 each, plus VAT)
4. Hardhat
5. Safety footwear
